

SENATE AND HOUSE.

Doings of Both Branches of Congress.

BOTH BODIES HARD AT WORK.

Senator Voorhees introduces a bill to relieve the money stringency—Nineteen million dollars to be added to the amount now in circulation—Silver debate in the house.

WASHINGTON, Aug. 15.—Just after the senate had assembled Senator Voorhees (Dem., Ind.) introduced a bill authorizing the issue of national bank notes to the full value of bonds deposited. It reads as follows:

Be it enacted, etc., That upon any deposit already or hereafter made of any United States bonds bearing interest, in the manner required by law, any national banking association, which has made or shall hereafter make the same, shall be entitled to receive from the comptroller of the currency circulating notes of different denominations in blank, registered and countersigned as provided by law, not exceeding in the whole amount in circulating notes thus issued the par value of the bonds deposited; provided, that at no time shall the total amount of such notes issued to any such association exceed the amount at such time actually paid in as its capital stock.

Accompanying the bill was the following letter from Secretary Carlisle:

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
WASHINGTON, AUG. 15.

Hon. D. W. Voorhees:
MY DEAR SIR—Your favor of the 10th inst., inclosing form of a bill, to provide for the issuing of circulating notes to national banks, and asking the views of the secretary of the treasury as to the advisability of its passage, is received. The enactment of such a law as proposed would enable the national banks to issue and put in circulation at once, on bonds already deposited with the treasurer of the United States, about \$19,000,000 in currency, in addition to the amount now authorized; and this, in my opinion, would afford a very considerable measure of relief to the country under existing circumstances. I therefore recommend the passage of the bill. Respectfully yours,

J. G. CARLISLE, Secretary.

The bill was referred to the committee on finance.

Mr. Perkins (Cal.) presented various memorials from the San Francisco chamber of commerce for the enactment of a substitute for the purchasing clause of the Sherman act; for the annexation of the Hawaiian Islands, and in favor of the Nicaragua canal.

Mr. Mitchell (Or.) gave notice of an amendment to be offered to a joint resolution to maintain the parity of gold and silver, that no change shall be made in the tariff laws during the Fifty-third congress.

Mr. Teller offered a bill to send the McGarraghan claim to the court of private land claims—referred to the judiciary committee.

Mr. Hill offered a resolution declaring it to be the sense of the senate that no legislation other than legislation pertaining to the finances shall be considered at the present extraordinary session of congress. Laid on the table.

Mr. Hoar (Mass.) gave notice that he would call up the resolution as to the Montana senatorial case, and would, after Wednesday, press it to a conclusion to the exclusion of all other business.

Mr. Vest (Mo.) called up the resolution offered by him last Tuesday, declaring that the American people favor bimetalism and the free and unlimited coinage of both gold and silver, without discriminating against either metals; that it is also the established policy of the United States to maintain the parity of the two metals so that the debt-paying and purchasing power of every dollar shall be at all times equal; that it is the duty of congress to speedily enact such laws as will effectuate and maintain these objects.

Before beginning his speech in support of the resolution Mr. Vest had read the declarations in the Republican and Democratic platforms on the subject of silver, in order to show that both parties were practically agreed on that question. He said that it was time for the people of the United States to know whether politics were a juggle and a fraud, or whether the solemn declaration of parties were worthy the confidence of a free people.

Taking up the Sherman act, Mr. Vest spoke of it as a houseless and homeless legislative dog with no one even to give a bone and without being able to find a kennel in which to hide its dishonored head. And, nevertheless, he would vote against its repeal without a guarantee as solemn as the great necessity of the people, that silver shall exist in the United States as the money metal. He had been known as the firm and unshrinking friend of the president of the United States, and has in all his campaign speeches in Missouri declared Mr. Cleveland to be a bimetalist, like himself; and that they only differed in reference to the ratio. He had had the right to make that statement, because Mr. Cleveland had accepted the nomination on a platform which pledged the Democratic party to bimetalism. It had been as well known that the Democratic party stood on the doctrine of bimetalism as that it had met in Chicago and nominated Grover Cleveland for the presidency. He did not undertake to say, now that the president was opposed to bimetalism, or that he would not give his executive sanction to a measure to coin silver at a commercial ratio with gold; but he did undertake to say that the president's message was most significant for what it failed to say.

Mr. Vest spoke of the unfortunate condition of the miners of the west; and said that the somewhat dramatic remark of an ex-senator recently that in the extreme west the people were crying for bread, and that in New York they were crying for gold, was literally true.

In conclusion Mr. Vest repelled the idea of there being a necessity for international agreement on the subject of silver.

At the close of his speech, Mr. Hoar (Mass.) obtained the floor; and, then, after a short executive session the senate, at 4:30, adjourned.

In the House.

WASHINGTON, Aug. 15.—In the house the speaker announced the following committee appointments:

Enrolled bills—Messrs. Pearson, chairman; Russell of Georgia, Delmer, Hines, Hager, Adams and Gillett of New York.

Accounts—Messrs. Rusk, chairman; Paynter, Tate, Mutchler, Ikert, Wells, Post, Wright (Mass.) and Marvin.

Mileage—Messrs. Lynch, chairman; Strait, Pendleton (Tex.) and Mahon.

The silver debate was then resumed. Mr. Boatner (Dem., La.) making the initiative speech. He spoke from a silver standpoint and charged that the advocates of the Wilson bill—the gold men of the Democratic and Republican parties—were responsible for the excitement which had created the destruction of public confidence and which had caused the run upon banking institutions. He declared that the Democratic party had pledged itself to bimetalism, leaving nothing for congress to do except fix the ratio, and insisted that the party should fulfill its pledges.

Mr. Layton (Dem., Ohio) said he would vote for the bill under consideration for the repeal of the purchasing clause of the Sherman bill, relying upon the good faith of the Democratic administration and the Democratic congress that in the coming regular session some permanent legislation would be enacted that would give all our people some suitable money worth a dollar all the world round.

Mr. Patterson (Dem., Tenn.) advocated the repeal of the purchasing clause and criticized the amendments proposed to the pending measure.

Mr. Bailey (Dem., Tex.) followed Mr. Patterson in a speech advocating the Bland free coinage substitute for the Wilson repeal bill. Speaking of the effect upon the country of the passage of the Wilson bill, Mr. Bailey said it would lead at once to a scramble for gold by all the nations of the earth, reducing the price of property to be exchanged for that gold to a lower figure than ever before known in the history of the world and precipitating a universal panic.

Mr. Pendleton (Dem., W. Va.) said that he was satisfied that the only way that a parity could be brought about between silver and gold, was for the country to come in accord with the other commercial nations of the world; and when that was done, the promise of the Democratic national platform would be kept.

Mr. Lacey (Rep., Ia.) spoke in favor of an amendment which he proposed to offer if he had an opportunity, providing the Wilson act should not take effect until the silver circulation should be increased to \$700,000,000.

Mr. Warner (Dem., N. Y.) said that he would first vote for the repeal of the purchase clause of the Sherman act, and next he would vote for the coinage of gold and silver on a parity. But these metals must be of the same intrinsic value. If there ever was a pledge made by any party, this Democratic pledge was sacred and plain. When silver men came and asked congress to inaugurate a new and hopeless scheme which had already damned the business of the country, he must object. (Applause.)

Mr. Hutchinson (Dem., Tex.) made a humorous speech in favor of the coinage of silver; but before he concluded the house, at 5 o'clock, adjourned.

DESTRUCTIVE FIRES.

Great Damage Done at Several Different Places.

BIG LOSS AT STEUBENVILLE, O.

Two Hundred Thousand Dollars' Worth of Property Destroyed—During the Fire a Prominent Merchant is Murdered and Robbed—Destructive Forest Fires in Wisconsin and Michigan—Other Fire Losses.

STEUBENVILLE, O., Aug. 15.—This city was visited by the worst fire in its history yesterday afternoon, which caused a loss of \$200,000. Over a half a block of the business center was burned. During the progress of the fire a merchant in another part of the city was murdered and robbed of \$115.

The fire broke out at 2:15 o'clock in Lindsay's livery stable. Mr. Lindsay was preparing hoof oil. He poured turpentine over this mixture which caught fire and soon the stable was in flames. A strong wind was blowing at the time, and an incident at water supply hampered the fire department. Nearly a block was consumed before the flames were gotten under control by the firemen and several hundred citizens who organized a bucket brigade. The principal losses are as follows:

Lindsay's brick building, occupied as livery stable, undertaking establishment and residence, \$25,000; Atlantic Tea company, same building, \$3,000; Falk's bakery and confection, with building, \$30,000; H. E. Shaffer's building, \$10,000, divided among different occupants; Jacob Chapman's two brick buildings, \$10,000; A Levinson's notion store, \$5,000; the Ohio Press office, \$50,000. The insurance on all the property is light. The other losses are \$1,000 and under.

While the fire was at its worst, the news of the murder of Johnathan Ferree, a hatter, in his store on Market street, caused great excitement. Charles Lowe, a bookkeeper and cousin of Ferree's, went into his store to purchase several articles. A dispute grew into a quarrel and blows were struck. Finally Lowe grabbed a hatchet and struck Ferree three times on the head. He left him lay on the floor and took \$115 from the money drawer. Lowe then went to a hotel, washed and changed his clothing, and fled. Ferree was found lying in a pool of blood by his wife. He can not recover. Lowe has not yet been apprehended.

CHICAGO HOTEL BURNED.

Five People Killed and Many Injured, Some Fatally.

CHICAGO, Aug. 15.—In a fire which destroyed the two upper stories of the 8-story Senate hotel at 184 Madison street Monday morning, five people were killed and five others were so badly injured that they can scarcely recover. At the Cook county and Mercy hospitals six others are moaning with pain in the wards so badly injured as to be unable to tell their names.

The fire started in the office of the hotel, and is supposed to have been caused by the overturning of an oil lamp. By the time that the night clerk had discovered that the building was on fire the flames were climbing from the starting point on the second floor up the stairway to the third floor, and smoke was pouring from the windows.

Supposed Incendiary Fire.

CELINA, O., Aug. 15.—Fire broke out in the rear of Wenn & Roberts' steam laundry on Fayette street, and nothing

but the heroic work of the fire department and citizens saved the town. The fire completely destroyed the laundry, machinery and building, sweeping to the adjoining room occupied by H. H. Gny's grain and feed store, then to Newcomb Brothers' feedroom, almost taking the 2-story business block of H. & J. Pulskamp, which was damaged to the extent of several hundred dollars. The dwelling of Newcomb was next destroyed. There was no insurance except on Pulskamp's building. Total loss about \$10,000. Supposed incendiary.

Flour Mills Burned.

DENVER, Aug. 15.—A fire which started shortly after noon totally destroyed the Crescent flour mill and elevator at Stanton avenue and Montgomery street. Both buildings were the property of the Colorado Milling and Elevator company, of which K. Mullen is president. The total loss, including a large quantity of flour and grain, is \$250,000 to \$300,000. The insurance is about 75 per cent of the loss. During the fire Lieutenant McLean was terribly injured by an explosion in the dust mill and may die.

Several Buildings Burned.

BARNESVILLE, O., Aug. 15.—Fire broke out in the dry goods room of Lorber & Ruman in the Ely building, entirely destroying their stock of dry goods, valued at \$8,500. It also damaged the large art gallery of W. P. Baker and the law office of C. J. Howard. J. I. Fly & Company's stock of drugs and wallpaper, valued at \$7,000, were damaged by fire and water from \$1,000 to \$15,000. The building was damaged from \$1,500 to \$2,000.

Barn and Contents Destroyed by Fire.

FORT WAYNE, Aug. 15.—The large brick barn on the Wayne street premises of Frederick Eckert, the wealthy pork packer, was entirely destroyed by fire, together with several carriages and a large amount of grain. Loss, \$11,000, fully insured. Cause unknown.

FOREST FIRES.

Great Destruction Being Done in Wisconsin and Michigan.

WEST SUPERIOR, Wis., Aug. 15.—Forest fires are raging extensively along the south shore east of this city. The loss of standing timber will be immense.

Bruce Crossing, a little hamlet 100 miles out from here, was practically wiped out Sunday night. Much railway rolling stock has been destroyed. The wife and child of a lumberman are missing and are supposed to have perished in the flames.

Special trains have been sent out on the South Shore railroad to render assistance to the inhabitants and the company's property.

Lumbermen Trapped.

BAY CITY, Mich., Aug. 15.—News from Bentley, in the burning district in the northern part of the county, is to the effect that a little daughter of Andrew Newton of that place was burned to death, and that 30 men are penned up in a lumber camp and can get no relief.

HOCKING VALLEY SITUATION.

The Trouble Grows Out of Not Paying the Miners.

CORNING, O., Aug. 15.—The mining situation in this section is at present assuming a serious aspect, and the outcome can only be conjectured. In an interview with State President Nugent and Secretary Pearce the following information was gained:

They claim that they could see no alternative but to accept the proposition of the operators to pay in 60-day paper. That the wholesale merchants of Columbus expressed a willingness to accept the paper in payment from the retailers, and that arrangements can be made which will carry all parties through.

The operators made the statement that this was the only proposition they could offer, and in the event of its rejection would positively shut down their mines.

Secretary Pearce said that possibly no objections would have been raised by the miners had they been paid for the work already done, but the operators claimed that, although they could raise the money, they would have to practically shut down to do so.

A meeting of the miners of Hocking, Perry and Athens counties is called for Wednesday at Shawnee, and a strike may be the result.

CHILD FASTER GOES BLIND.

She Had Abstained From Food For Fifty-Nine Days.

BRAZIL, Ind., Aug. 15.—Little Cora Fugate, living in Hadleytown, near here, was yesterday stricken blind. A few weeks ago she closed a feat that beats any other on record. She abstained from food for 59 days, saying she wanted to die and go to her little brother, who had died a few days before her last began.

After the fast she was seized with a desire to live, but her constitution was so weakened that she never recovered. Her head began swelling, and she has suffered from many diseases provoked by her frail condition. Her forehead protruded over her eyes so far that the optic muscles became weakened and she went blind. It is believed she will die.

Fatally Killed by a Horse.

MARTINSVILLE, Ind., Aug. 15.—Roscoe Mosier, 13 years old, son of Aquilla R. Mosier, living three miles south of Morgantown, was kicked by a horse and his skull was fractured. He can not recover.

IN FIFTEEN ROUNDS

Alexander Greggains Knocked Completely Out

BY DANIEL CREEDON AT ROBY

The Fight Took Place in the Arena of the Columbian Athletic Club For a Purse \$5,000 and a Side Bet of \$2,000. But Little Betting Done.

ROBY, Ind., Aug. 15.—The middleweights, Dan Creedon of Australia and Alexander Greggains of San Francisco, met last night in the arena of the Columbian Athletic club for a purse of \$5,000 and a side bet of \$2,000. Both were seconded by well known talents. Creedon had Buffalo Costello, Jim Carroll and Sam Fitzpatrick, his trainer, with John Hopkins holding the watch. The club's referee, George Siler, acted in his official capacity.

Little betting had been done in this city.

Evan Lewis, the Strangler; Parson Davies, Joe Choyinski and Mose Gussel of San Francisco, each with a party of friends, occupied boxes around the ringside.

While the spectators were awaiting the arrival of the participants, several persons who got in by crawling under the flooring were discovered and ejected. Some of them resisted and were clubbed almost into insensibility before being thrown outside.

At 10 o'clock Dan Creedon made his appearance in the ring. Greggains followed a moment later and the two men were introduced and shook hands. Both men looked in the very pink of condition, their appearance when they stripped eliciting hearty applause.

First round—Both men spurred for an opening. Both were evidently inclined to force the fighting. In endeavoring to land a right-hander Creedon slipped to his knees and quickly recovered. Greggains landed with left and right on face as time was called.

The second round ended with honors even.

Third round—Greggains landed heavily on his opponent's face with left, and followed it with a jab in the wind. Creedon got in his right on the wind, but with little effect.

Fourth round—Creedon led for breast but fell short and got a jab in the neck in return. Greggains countered twice on the body, and followed it up by a stinging blow in the face. Then he ducked a swinging right, only to receive a left-hander in the face. Creedon seemed unable to reach his opponent, the latter showing himself remarkably clever on his feet in avoiding rushes. Creedon got home hard on the wind with right as the round ended.

Fifth round—Greggains was suffering from his last body blow, but opened the round with a hard right in the face and followed it with his left. The round ended slightly in his favor.

Sixth round—Both men went at it hammer and tongs, landing on each other in quick succession. Towards the close Greggains went to the ground from a heavy right-hander. He managed to stagger to his feet, and was again punched, and was only saved by the call of time.

Seventh round—Both came up tired. Greggains was bleeding from the mouth and played for time.

Eighth round—Greggains came up considerably recuperated, while Creedon was as fresh as a lamb; but at the close both men went to their corners tired.

The ninth round ended tamely with both men sparring. Another gang of interlopers were caught and expelled during this round, creating considerable uproar.

The 10th round was in Creedon's favor, and the 11th was nobody's round.

Twelfth round—Creedon landed several times in the wind and face but Greggains avoided a knockout. The mob on the outside attempted to batter down the doors and a panic nearly resulted. An attempt was made to fire the ticket office.

Thirteenth round—This round commenced amid almost indescribable uproar, shouts and cries, the major portion of the audience yelling to the remainder to be cool and sit down. Creedon landed in the wind and Greggains followed with a left-hander in the face. Creedon landed a hard right on the jaw and followed with two resounding blows in the same direction. Creedon was punching around the ring as time was called, with Greggains very groggy.

Fourteenth round—Greggains was game though he was soundly pounded, and was still smiling when the round ended.

Fifteenth round—At the opening Creedon landed a left-hander on the jaw and followed it again a second time. At the last blow Greggains went down like an ox. He endeavored to clamber to his knees, but failed in the attempt, and then fell back like a log and was counted out.

Creedon turned a handspring in the middle of the ring and was then carried out by his enthusiastic supporters. The fight ended at 11:08 o'clock. Greggains came to in a few minutes, shook hands with the victor and both men took a drink together.

Injured in a Runaway.

PORTLAND, Ind., Aug. 15.—A serious runaway occurred east of here. Nelson Snyder, accompanied by his wife and three little girls, were driving to a neighbor's when a dog frightened the team. It ran away and Snyder and the entire family were thrown out.

Snyder was badly hurt, and has a number of his ribs broken. His wife is hurt about the head. The two oldest girls are also hurt, while the youngest one is unconscious, and is not expected to live.

Not until he leaped into the air and fell prostrate, gnashing his teeth and foam- ing at the mouth, was it discovered that he was 'not right in the head.' He was at once seized upon by two members, one being a powerful man. It required six strong men to hold him. While the jury was trying his case Saturday morning he arose several times and endeavored to preach. He will be confined in the An- chorage Asylum." **The L. and N. Pay Car.** It is announced that the Louisville and Nashville Railway Company is ready for pay day. As the company's lines cover a territory reaching from the Ohio to the gulf and from Pensacola to St. Louis, this announcement is one which ought to be of wide interest in the South, and which should bring joy to the hearts of thousands. The number of names on the pay roll of the Louisville and Nash- ville is about 17,000; it may safely be assumed that all of these will begin spend- ing money after the pay car arrives, and so there will be so much currency of the United States set circulating through the veins of the body financial. It is the honorable boast of the Louis- ville and Nashville Railway Company that only once in twenty-five years past has pay day been deferred. The single instance occurred in 1873, and the delay did not exceed a fortnight. The secret of the financial health, so exceptional at this time, which this company enjoys, is in the fact that, not only are the receipts of the road good, but the depositories of its funds are both numerous and well chosen. Some of its funds are kept in St. Louis and in New Orleans banks, and it is well known that these are among the cities which have escaped almost un- harmed amid the widespread disaster of this year. The three pay cars, from Louisville, Evansville and St. Louis, respectively, will start one day this week. None of them will begin the journey loaded with all the money to be disbursed on the trip; they will stop at intervals to renew the precious burden they have to distrib- ute. GEO. W. SULZER, law, fire insurance.

Thomas, of Dexter, has rented the Moran shop, and will engage in blacksmithing at this place. The tobacco crop is very uneven here. It will have to be seasonable and a late fall to make half a crop. Sylvester Murrain will move to Bridgeport, Lewis County, this week to engage in black- smithing. Miss Sullio McNutt, of Maysville, was the guest of Misses Naulie and Silva Ricketts several days last week. D. Robert Dunbar, of Illinois, and brother James, of East Maysville, are here to see their mother who is very sick and not expected to live. Mr. G. E. Dunbar and wife, of Maysville and J. M. Sunday Killing. Sunday afternoon near Carlisle, a most cold blooded and unprovoked murder occurred. Saturday night, John Howard left Carlisle in a drunken condition, but had not proceeded far, when he fell from his horse and fractured his skull, dying Sunday morning. In the afternoon Sam Smith went to Howard's house armed with a double barrel shot gun with the inten- tion of killing his wife who was domiciled at Howard's house. Will Curry a neigh- bor was at the house and expostulated with Smith, appealing to him on account of the fact that a corpse lay in the house, and to go away without a disturbance, this Smith refused to do and said I will kill you. Smith then raised his gun and poured the contents of both barrels into Curry's breast, death resulting instantly.

Mason County Teachers Assembled at the High School Building.

Short Talks by Prof. A. L. Peterman and Sup't Blatterman—Enrollment of Teachers.

The Mason County Teachers' Institute convened at the High School Building in this city Monday, August 14, and was called to order by Superintendent G. W. Blatterman. After scripture reading there was prayer by Prof. Buffington.

Prof. A. L. Peterman, of Lexington, was introduced to the institute by Superintendent Blatterman, and made some very pleasant remarks. Superintendent Blatterman arose and after making some timely and appropriate remarks read notes on the changes which have lately been made in the school laws, after which the institute adjourned until 1:45 p. m.

AFTERNOON SESSION.

The Institute was called to order by Superintendent Blatterman, and was opened with singing.

Prof. Peterman then proceeded to deliver his opening address, in which he indicated the purpose of the institute which was illustrated with a diagram. He then spoke of the necessities of this institute, and named some of the necessities, which are as follows: First, promptness; second, attention, and third, good intentions.

After an intermission of ten minutes and a song, the regular work by the programme and syllabus was taken up by Prof. Peterman, introducing the first subject psychology, which was treated in a very able manner and at considerable length. A song and the institute adjourned for the day, to meet at 8:45 on Tuesday morning.

ANDERSON M. WADDILL, probably the richest and most successful sporting man in the South, died at his home in Louisville Saturday. He was a native of Alabama, but had lived in Louisville since 1864. He was a book-maker, pool-room owner and gambling house proprietor, and made and accumulated money from all his ventures. He left a large estate.

A LAFAYETTE (Ind.) preacher has stirred up a hornet's nest in his congregation. Last Sunday he said: "God made the earth in six days and then he rested, then he made man and rested again; then he made woman, and since that time neither God nor man has had a rest. Dozens of women left the church, and it is said, actual disruption is imminent. And 'twould serve the impertinent pastor right too; all women aren't lady managers of the World's Fair, and shouldn't be so adjudged."

The following is from an article in the exposition number of Demorest's Magazine: "Kentucky's room in the Woman's Building at the exposition is replete with interest for all students of colonial days. In construction and decorations it takes one back to pre-revolutionary times, and it is filled with historic relics and souvenirs. There is a chair over 300 years old, often used by Elder Brewster, of Plymouth colony fame. The solid mahogany furniture has descended in time-honored families, and many pieces are associated with the great men of the past."

Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book.
